2014 Retail Price List
EFFECTIVE JANUARY 15 , 2014

All Prices are in USD

AQUATICA DIGITAL HOUSINGS BODIES

IMPORTANT NOTICE

Explanation on housings suffixes

AQUATICA housings come traditionally with dual Nikonos strobes connectors, if no suffix is attached, then said housings will be delivered with these connectors set up.

NK is a housing equipped with two Nikonos connectors.

OPT is a housing equipped with two optical connectors (included are adapters to attach two Sea & Sea or two Inon type strobe

HYB is a housing equipped with one nikonos type and one optical type connector (included are adapters to attach one Sea & Sea or two Inon type strobes).

KM is a housing equipped with a single Ikelite manual strobe connector.

KT is a housing equipped with a single TTL type strobe connector, this can only be used with the Ikelite # 4301 TTL converter.

VF, this housing will be delivered with both the standard View Finder and the Aqua View Finder.

VC, this housing will be delivered with our vacuum circuitry kit (valve and pump).

INDEX

Housings for Canon Cameras

Housings for Nikon Cameras

Housings accessories, moisture alarm, dome ports, flat macro port, close-up lenses, port extension

Port extension locking collar, port adapters, domes (shades, neoprene covers and protective caps) Close Up Lens, Port Extensions rings, Locking collar and Port adapter

IMPORTANT NOTES ON TTL COMPLIANCE

Not all strobes and camera combination will offer TTL, please check with the manufacturer of your strobes for compatibility*

- (1) Can be used for TTL with housed flash or third party TTL converter
- (2) TTL is not available with these connectors
- (3) This bulkhead assembly is for Nikon film camera housings (required for eTTL)

* A comprehensive description of all Aquatica strobe connectors is available from our website
